

# PRO<sup>®</sup>

# Go-Kit<sup>®</sup>

Everything you need to restore fiber communications... in a Go-Kit!

Are you a:  
*Contractor?*  
*Technician?*  
*First Responder?*  
We've made a kit  
just for you...

## Everything you need... in a Go-Kit!

At PRO, we've taken our experience from working in the field and transformed it into a comprehensive solution for all your fiber optic gear. Many industries, many tools to track, many problems... One solution - Go-Kit.

Whether you are an installer, technician or emergency responder, there's nothing more convenient than having all your equipment ready to go when a job springs up - we know this from experience. With the PRO Go-Kit you will have everything you need to clean, test, inspect and connect fiber communications conveniently stored so you can "grab and go".

Every Go-Kit is purpose-built. We have assembled the kits to accommodate a wide variety of situations that technicians are likely to encounter on the job. When it comes to saving time and doing the job right, there's only one answer, **Work with a PRO!**

## Servicing a variety of fiber optic industries...

There's a **Go-Kit** to suit every task and every budget!

**More Information:** If you like what you see here, check out all the individual Go-Kit configurations at our website. Visit <http://precisionratedoptics.com/product-category/kits/> and request a quote!

# One Solution...

## Go-Kit Backpacks

This is no ordinary backpack. Go-Kit Backpacks are the ultimate solution for fiber technicians everywhere. Go-Kit Backpacks come in industry-configured designs and can include a fusion splicer, OTDR, PM/LS, VFL, cleaning supplies and tools all in one convenient, rugged and field-tested backpack. Can't find what you need? Ask us about customizing your own Go-Kit Backpack at no additional cost!

## Optical Loss Go-Kits

Whether you are a fiber technician or contractor, Optical Loss Go-Kits contain all the tools necessary to quickly measure loss, power levels, inspect and clean connector end-faces. Features including both SM, MM testing capabilities, test cables and SC, ST, FC and universal adapters in a semi-rigid carrying case make PRO the best fiber test kit on the market.

## Go-Kit Tool Kits

Precision Rated Optics has configured a variety of Go-Kit tool kits based on different field operations. Whether you simply need hand tools for your inventory or field termination tools, PRO has you covered. No where else in the industry will you find one product line that has everything you need - PRO Go-Kits.

## Go-Kit Cleaning Kits

Certain cleaning supplies are needed on *any* fiber job. We've chosen the most commonly-used items and configured several Go-Kit Cleaning Kits. Get just the basics or upgrade for more! Inspect, Clean, Evaluate.. Test (ICE-T). Always inspect your endface to determine its quality to choose the preferred cleaning method.
