### Everything you need to CLEAN, INSPECT & TEST!

Precision Rated Optics has developed Optical Loss Go-Kits designed for specific markets within the communications industry. With new advanced capabilities that make testing simple, PRO Optical Loss Go-Kits are the best "go-to" kits for anyone involved in first-line optical fiber cabling installation and verification.

Whether you are a fiber technician or contractor, our expertly configured kits contain all the tools necessary to quickly measure loss, power levels, inspect and clean connector end-faces. Features including both SM and MM testing capabilities along with Test Cables and SC, ST, FC and universal adapters in a semi-rigid carrying case make PRO the best fiber test kit on the market.

#### Features:

- Semi-Rigid Carrying Case
- Power Meter (Six Wavelength)
- Light Source
- 400x Fiber Inspection Scope
- Cleaning Supplies
